Made In Situ Gallery

"A gallery space created by
Noé Douçafour Lawrance
showcasing collaborations
with local artisans in Portugal."
Moullinex

The MiS Space is a platform where you get a chance to be in direct contact with the artists' work. Occasionally they host sensorial evenings. These evenings, coinciding with the collection on view, share the artists' sensory discoveries and reverberating inspirations, interpretations and evocations through gastronomy, music, events, talks and experiences.

Made in Situ is the manifestation of a creative dynamic of apperception, rooted in the treasures of a territory, its craftspeople and its systemic connections to nature. This results in a cycle of seasons, each with its own story.
